

Olidata joins the FinTech Awards Italia 2026 as a Technical Partner

Milan, October 5, 2026 – Only a few days remain until the FinTech Oscars Night at Borsa Italiana. The partnerships for the 6th edition of the FinTech Awards Italia | Oscar del FinTech have now officially been finalized, with **Olidata** joining as **Technical Partner**.

With more than 80 institutions, associations, universities, technology hubs and partners involved, the 2026 edition of the event – which for six years has brought together professionals from the worlds of finance, technology and innovation – is preparing to make its debut at the “temple” of Italian finance: Palazzo Mezzanotte.

The Olidata Group has joined the initiative as **Technical Partner**. This reflects the recognition, by the historic Italian IT company – which has successfully reinvented itself and today operates as a technology consulting holding company and system integrator – of the value and growth that the FinTech Oscars have demonstrated over the years.

“I am particularly proud,” said **Augusto Vecchi**, creator and coordinator of the event, “to have finalized the partnerships with a Made in Italy brand of Olidata’s standing. I would also like to take this opportunity to officially announce the speakers for the Salotto del FinTech, the institutional and business forum that precedes the awards ceremony. The first session will feature Hon. Marco Osnato joining remotely and Hon. Giulio Centemero attending in person; Andrea Quacivi, Director General of the Italian National Cybersecurity Agency; Marcello Sala, Chairman of Nexi SpA; and Federico Silvestri, CEO of the Il Sole 24 ORE Group. The second session will feature Hon. Marcello Coppo joining remotely, together with Guido Maria Brera, co-founder of the Kairos Group, Chora Media and Be Water Film; Lucia Fracassi, CEO of eViso SpA; Andrea Delfini, Founder & CEO of Blastness SpA; and Alberto Asti, CEO of IT Value Partner.”

“We are honored to support, as Technical Partner, an event that over the years has become a key reference point for dialogue between finance, technology and innovation,” said **Giordano Viglietti, CFO and Investor Relator of the Olidata Group**. “In a constantly evolving market, technology is increasingly becoming a strategic factor in supporting growth, strengthening competitiveness and creating lasting value for all stakeholders. Dialogue between companies, institutions and the financial community is essential to building solid and credible development paths. Taking part in an initiative such as the FinTech Oscars means contributing to this dialogue by putting expertise and innovation at the service of an ecosystem capable of looking to the future with both pragmatism and vision.”
