OLIDATA AWARDED €4.4 MILLION IPZS CONTRACT FOR SUPPORT AND MAINTENANCE SERVICES FOR CORE IT INFRASTRUCTURE

Rome, November 9, 2026 – **Olidata S.p.A.**, an Italian System Integrator listed on the Euronext Milan market of Borsa Italiana, has been awarded, as the lead company with a **75.45% share**, a tender launched by the **Istituto Poligrafico e Zecca dello Stato S.p.A.** (IPZS), with a total contract value of **€4,469,000.00, of which €3,370,500.00 attributable to Olidata**. The contract covers technical support and hardware and software maintenance services for storage systems and related components of IPZS's core IT infrastructure. The contract will have a duration of five years.

The contract covers a strategically important technological area for ensuring the operational continuity of the IT systems of the Istituto Poligrafico e Zecca dello Stato, through technical support and maintenance services for its core data storage and management infrastructure.

The initiative aims to ensure the reliability and efficiency of the technological infrastructure through ongoing maintenance of hardware, software and related systems, ensuring adequate performance, service continuity and support for the Institute's operational requirements.

The contract award further strengthens **Olidata's commitment to supporting the strategic infrastructure of public administrations**, through the provision of technology services that contribute to the functioning and resilience of Italy's national infrastructure.
